

Nitin Bijlwan

Jaipur, Rajasthan

7357779981 nitinbijlwan9606@gmail.com

AWS DevOps Engineer with hands-on experience in AWS, Docker, Kubernetes, Jenkins, Git, Linux, and CI/CD automation. Completed a 6-month Cloud & DevOps training internship and deployed applications on AWS EC2 using Kubernetes. Experienced in containerization, monitoring with Prometheus and Grafana, and cloud-native application deployment.

Skills & Tools

- **Cloud Platforms:** AWS (EC2, IAM, VPC, S3, ECS, ECR, EKS, CloudWatch)
- **Containerization & Orchestration:** Docker, Kubernetes
- **CI/CD Tools:** Jenkins, GitHub Actions
- **Version Control:** Git, GitHub
- **Monitoring Tools:** Prometheus, Grafana, Loki, Promtail, CloudWatch
- **Operating Systems:** Linux (Ubuntu, CentOS)

Professional Experience

Cloud and DevOps Intern

Zeetron Networks Pvt. Ltd.

Dec 2023 – June 2024

Jaipur, Rajasthan

- Worked as a Trainee DevOps Engineer, gaining hands-on experience in Cloud and DevOps practices.
- Worked on multiple projects focusing on cloud infrastructure setup, automation, and deployment.
- Gained hands-on experience with AWS, Docker, Kubernetes, Git, GitHub, and other DevOps tools.
- Configured and deployed a multi-tier web application on AWS EC2 with Auto Scaling, ensuring high availability and performance.

Project

Three-Tier Flask Application with MySQL

- Developed and containerized a three-tier application using **Flask** and **MySQL** with **Docker**.
- Provisioned a **Kind (K8s in Docker)** cluster on an **AWS EC2** instance and deployed the application using K8s **Deployments** and **Services**.
- Configured **Persistent Volumes (PV)** and **Persistent Volume Claims (PVC)** to provide persistent storage for the MySQL database.
- Implemented a Jenkins CI pipeline to automate source code checkout, Docker image builds, application validation, and image publishing to Docker Hub.
- Managed application configuration and sensitive database credentials using **Kubernetes Secrets** and **ConfigMaps**.
- Exposed the application using Kubernetes networking components, enabling reliable access to the Flask application.
- Used **Git** and **GitHub** for version control and collaborative source code management.

Deployed Reddit clone on AWS using Kubernetes

- Deployed a Reddit application on an **AWS EC2-hosted Kubernetes cluster**, enabling scalable and containerized application deployment.
- Retrieved the application source code from GitHub, containerized it using Docker, and published the image to Docker Hub.
- Configured Kubernetes Deployments, Services, and Ingress to ensure high availability, service discovery, and external access.
- Automated container build and deployment using Jenkins, reducing manual effort and improving deployment consistency.
- Managed application deployment using Kubernetes manifests, following containerization and orchestration best practices.

Education

Master of Computer Applications (MCA)

Dec. 2021 – Feb. 2024

Rajasthan Technical University, Kota

Bachelor of Computer Applications (BCA)

Sep. 2018 – May 2021

S.S. Jain Subodh P.G. Autonomous College, Jaipur

Certifications

- **AWS Cloud Training & Certification — IIHT Zeetron Networks Pvt. Ltd.**
- **DevOps Training & Certification — IIHT Zeetron Networks Pvt. Ltd.**
- **Cloud and DevOps Certification — Synergy works**
